On-property auction
(interfaced with AuctionsPlus)

FOREWORD

We are excited to offer you what we believe is our best line-up of rams to date. The last 12 months have been rewarding, and it's all thanks to the strength of our breeding programs and our dedicated team.

We are proud to have been awarded a 5-star data quality score from Sheep Genetics - an acknowledgment of our team's diligent work and an assurance for buyers that the data accurately reflects the sire's performance in the paddock.

Our Highlander and FocusPrime programs continue to drive our genetic gain, backed by over 35 years of recorded data and early adoption of DNA parentage and genomics. The exceptional genetic gain of 6.5% achieved this year is a testament to the progress we've made - representing our best sale team yet. This kind of advancement means our rams are primed to enhance your flock's fertility, growth and overall efficiency.

The most rewarding part of our business is seeing these gains directly benefit you, our clients. Many of you have experienced significant improvements in fertility and survival, translating to increased carrying capacity and higher returns per hectare.

In achieving these gains, we know our clients will be well positioned to capitalise on the growing global demand for protein, as analysts predict that demand will outpace supply with the expansion of the middle class in developing countries.

We thank you for your continued trust in our genetics here at Karrawarra. We look forward to welcoming you to our sale and to sharing in future growth and achievements together.

Best Wishes

SALE CATALOGUE DISCLAIMER

All reasonable care has been taken to ensure that the information provided in this catalogue is correct at the time of publication. However, neither the vendor or the selling agents assume any responsibility for the accuracy, reliability and/or interpretation of the information provided in this catalogue. Purchasers are encouraged to seek their own independent verification before relying on such information.

SALE INFORMATION | 23 Sept 2024 12:00 PM(AEST)

On-property auction offering Highlander & FocusPrime rams,
interfaced with AuctionsPlus

PRE-SALE INSPECTIONS

Pre-sale inspections will be held on Monday 23rd September from 9:00am. If you require assistance understanding ASBVs, managing your ram team data or selecting new rams to match your breeding objectives, contact Leo prior to sale day.

LEO 0429 434 223

VANESSA 0427 434 227

SALE LOT VIDEOS

A short video of each ram will be available on AuctionsPlus prior to sale day. Links to these will be posted on our Website and our Social Media pages. Follow us on social media to view a selection of paddock photos and videos leading into sale day.

karrawarra.com.au

SALE DAY CATERING

Morning tea and lunch will be provided prior to the sale, with a few drinks afterwards.

STRUCTURAL ASSESSMENT

All rams have had a health check by Coolac Vet Services and structurally assessed by an independent classer and the Karrawarra Team.

GST

All Karrawarra rams are sold GST exclusive.

REBATE

Karrawarra's selling agents are Nutrien Livestock Wagga Wagga. Outside agents will be offered a 2% rebate by the vendor under the following conditions:

- Introduce a new buyer (via email: vanessa@karrawarra.com.au) by 5pm Friday 20 September 2024
- Settle account within 7 days

KARRAWARRA QUALITY ASSURANCE

Our Highlander and FocusPrime rams are:

Ovine Brucellosis
Accredited - Annual
palpation and
blood tested by
Coolac Vet Services

Fully vaccinated for
clostridial diseases,
cheesy gland, scab-
by mouth, and Ovine
Johnes Disease

Protected against
internal and external
parasites

Vet health check on
19 August 2024 by
Coolac Vet Services

Free from lice and
footrot

All rams were shorn
on 1 August 2024

A health statement is included in your post-sale package.

UNDERSTANDING ASBVs

An Australian Sheep Breeding Value (ASBV) is an estimate of the genetic potential a sheep will pass on to its progeny. Based on pedigree and performance information, they take the guesswork out of ram selection. To assist you with your ram selections, we have explained the Maternal and Terminal ASBVs in our ram catalogue against the Maternal and Terminal Breed Averages.

PWT POST WEANING WEIGHT

Weight at 200 days, this is an important ASBV for ewe lamb joining. Rams with a more positive PWT produce lambs that grow quicker and reach target weight in a shorter time.

YERA YEARLING EWE REARING ABILITY

How successfully did the ewe rear her litter? The ability of the ewe to rear the lambs she gives birth to, relative to other ewes with the same litter size. Sires with higher ERA will produce daughters which rear more of their litter.

MWWT MATERNAL WEANING WEIGHT

Rams with more positive MWWT produce daughters that will wean heavier lambs.

YLS YEARLING LITTER SIZE

How many lambs were born? The number of lambs born for lambed ewes. Sires with higher YLS will produce daughters that give birth to more lambs, when joined as a ewe lamb.

BWT BIRTH WEIGHT

Rams with more negative BWT produce lambs which are lighter at birth improving lambing ease.

Lot 6		231118		HIGHLANDER		Rear Type 2				Born: 11/8/2023		
200004		194035		Our top indexing ram with great structure and a moderate adult weight. Sibling of our top ram lambs used for mating in 2024.								
Sire: 211122		Dam: 220122										
200018		183893										
LAMBPLAN MATERNAL ASBVS												
ASBV	Welfare		Growth		Reproduction					Wool	Index	
	BWT	PWEC	PWT	AWT	MWWT	YCON	YERA	LS	WR	YFD	MCP+	MWP+
	0.9	-20	14.4	12.7	1.5	0.33	0.05	0.28	0.30	-0.5	177	224
Breed average	0.4	-39	12.0	12.6	0.3	0.26	0.04	0.15	0.19	0.5	152	186
Comments:												

PWEC POSTWEANING WORM EGG COUNT

Rams with more negative WEC produce progeny who have a higher genetic potential to resist worm burdens

YCON YEARLING CONCEPTION

Did the ewe conceive? The ability of a ewe to get in lamb in comparison to all the ewes in the same joining event. Sires with higher YCON will produce daughters which have a higher conception rate when joined as ewe lambs.

YFD YEARLING FIBRE DIAMETER

A ram that has a YFD of -0.8 will produce progeny that are genetically 0.4 microns finer than a ram with a YFD of 0.

AWT ADULT WEIGHT

Weight as an adult, over two years of age. Rams with more positive AWT produce progeny that are heavier as an adult.

WR WEANING RATE

Weaning rate is the number of lambs weaned per ewe joined. A ram with a WR of 0.2 will have daughters who, on average, wean 0.1 more lambs per ewe joined, than daughters of a ram with a WR of 0.

Maternal Carcase Production + and Maternal Wool Production + INDEXES

These Indexes help you select for use within a breeding program when there are many traits of importance.

TOP 1%

TOP 5%

TOP 10%

TOP 20%

We have highlighted trait leaders in these percentile bands for Maternal ASBVs

MCP+, MWP+ and LEQ Indexes

Indexes support you in selecting animals within your breeding program when considering many different traits of importance. Using an index when purchasing rams allows you to make genetic progress towards a more profitable sheep in your production system. Please take time to read up on what is included in the index you are using.

PWT POST WEANING WEIGHT

Weight at 200 days, this is an important ASBV for ewe lamb joining.

Rams with a more positive PWT produce lambs that grow quicker and reach target weight in a shorter time.

BWT BIRTH WEIGHT

Rams with more negative BWT produce lambs which are lighter at birth improving lambing ease.

PFAT POST WEANING FAT DEPTH

Rams with a more negative PFAT produce progeny that are leaner.

SHEAR5 SHEAR FORCE

Measure of the force required to cut through the loin muscle after 5 days of ageing. Rams with more negative SF5 produce lambs with more tender meat.

LE_DIR LAMBING EASE

Rams with a more positive LE_DIR will produce progeny that have lower incidence of lambing difficulties.

Lot 90		236032		FOCUSPRIME		Rear Type: 2		Born: 27/6/2023		
FE170761		FA180273		Excellent LEQ, eating quality, worm resistance and lambing ease.

Breed average	0.3	-27	14.8	2.1	-0.3	-0.39	2.0	2.3	0.4	137
Comments:										

PWEC POSTWEANING WORM EGG COUNT

Rams with more negative WEC produce progeny who have a higher genetic potential to resist worm burdens

PEMD POST WEANING EYE MUSCLE DEPTH

A ram with a more positive PEMD produce lambs that have more muscle and yield more lean meat.

IMF INTRAMUSCULAR FAT

Measure of the chemical fat percentage in the loin muscle. Rams with a more positive IMF will produce progeny with higher levels of marbling in the loin muscle.

DRESS

DRESS PERCENTAGE

Rams with a more positive DRESS produce lambs that have higher lean meat yield percentage at slaughter.

LEQ INDEX LAMB EATING QUALITY

The LEQ index balances large improvements in eating quality with modest increases in lean meat yield, and includes emphasis on worm egg count ASBVs.

TOP 1%

TOP 5%

TOP 10%

TOP 20%

We have highlighted trait leaders in these percentile bands for Terminal ASBVs

KARRAWARRA RAM SALE LOTS

To assist you with your ram selections, we have highlighted trait leaders in the following percentile bands for Maternal ASBVs:

TOP 1%

TOP 5%

TOP 10%

TOP 20%

This determines an individual ram's ranking for that trait compared to all maternal breeds using LAMBPLAN as of 15 August 2024.

We have received a 5-star data quality score from Sheep Genetics this year for both the Highlander and FocusPrime flocks (up from 4-stars in 2023).

A 5-star rating places Karrawarra Highlanders and FocusPrimes in the **top 9% and 15% of flocks** for data quality for the Maternal and Terminal Sheep Genetics Analyses, respectively.

YOUR KARRAWARRA RAM PURCHASE

Terms and Conditions of our Ram Warranty Policy are outlined in Karrawarra's Ram Buyers Guide which is included in your post-sale package. Please take the time to read this guide as it will help you maximise the potential of the genetics you have purchased on arrival to your property.

TRANSPORT

Vendors are welcome to transport their own rams at the conclusion of the sale. Could you please indicate your intentions with Vanessa or Leo prior to sale day.

Rams can be delivered by Karrawarra, Dick Smith Transport or Pages Transport into Tasmania. We will contact you following the sale to arrange delivery. The itinerary will be made in conjunction with other ram sales and might require you to supply additional transport from a central location to your property.

Karrawarra will provide a 50% transport subsidy.

ON ARRIVAL TO YOUR PROPERTY

Whilst our rams are familiar with both people and husbandry practices, we encourage and urge all who interact with the rams to practice responsible livestock handling. When your rams arrive on your farm for the first time they may be stressed from travel and the change in environment. Please allow time for rams to acclimate.

INSURANCE

If you wish to insure your ram purchase please do so before leaving Karrawarra. Our ram insurance policy ceases as the rams leave Karrawarra.

TWO TOOTH RAM WARRANTY POLICY

- Guaranteed disease free, including Ovine Brucellosis on departure from Karrawarra
- Guaranteed through to conclusion of first joining
- Guaranteed for structural faults through to conclusion of first joining
- Guaranteed fertility, subject to veterinary examination, testing and conclusive report

SEMEN RETENTION RIGHTS

The following sets out the terms and conditions of sale by Karrawarra Pastoral Pty Ltd (Karrawarra Pastoral/Vendor) in addition to any terms in the AuctionsPlus User Agreement and Sale Terms.

The Purchaser acknowledges that Karrawarra Pastoral has invested significant time and expense in the development of its breeding and that it owns all intellectual property herein and retains the right to sell and use the semen from all rams sold on the following conditions:

1. Karrawarra Pastoral grants the Purchaser a licence to use the semen from the ram, naturally or by way of artificial insemination, on the Purchaser's own herd or flock. The Purchaser does not have any right to sell or otherwise commercially deal with the semen from or semen rights of the ram.
2. The names of all members of any syndicate, partnership or other joint arrangement of ownership of the animal by the Purchaser must be listed on the bidder card at registration prior to the sale. The purchaser warrants that it is not bidding or purchasing on behalf of another person who has not been disclosed to the vendor.
3. The vendor reserves the right to refuse a bid from a purchaser if it reasonably suspects that it may breach these terms and conditions.
4. If the Purchaser transfers the animal or an interest in the animal, whether by way of sale, gift or otherwise, then the transferee is bound by these rules and the Purchaser agrees to obtain the agreement of transferee to Karrawarra Pastoral terms and conditions.
